

AmberTech MSM

Lubricate to the Molecular Level

Product Bulletin:

AmberTech PSL (Penetrating Spray Lubricant)

AmberTech PSL is a mixture of bio-derived components infused with our proprietary formula AmberTech M99, empowering it with superior performance. AmberTech PSL Lubricates, Cleans, Conditions, and Protects the metal surface. This extraordinary spray lubricant is ideal for external mechanical systems and all metal surfaces that require a lubricant, cleaner, degreaser, or surface protectant.

Product Features/Advantages

- Outstanding Film Boundary Strength (Superior Lubricant)
- Surface Protectant
- Excellent cleaning properties
- Anti-corrosive (Impedes corrosion from rust, oxidation, dirt, etc.)
- Cleans, Conditions, and Strengthens the Metal
- Water resistant
- Nonflammable and Nonhazardous
- Manufactured at an ISO 9001 facility
- Readily Biodegradable

AmberTech MSM PSL Benefits

- Extends the life of Chains and Cables
- Reduces friction, heat, and metal wear
- Rust Remover
- Superior film boundary protection for metal surfaces
- Extends equipment life through shielding corrosion at molecular levels
- Minimizes downtime from breakdowns
- Lowers maintenance and operating costs
- Increases the equipment's operational efficiency
- Exceptional performance under extreme pressure

AmberTech PSL Applications

• Chains	• Cables	• Ship Hulls
• Metal Tracks	• Ball Screws	• Threads
• Slide Surfaces	• Parts Cleaner	• Degreaser

Note: The PSL can be used on any metal surface that requires a lubricant, cleaner, or surface protectant.

AmberTech PSL Sizes

16 oz. Spray Bottle	Master Case (2 Cases)	55 gal. Drum
Case (12 Bottles)	2.5 gal. Jug	275 gal. Tote
