

AmberTech MSM

Lubricate to the Molecular Level

Product Bulletin:

AmberTech MSM Sport Treatment: Firearm Industry

AmberTech Sport Treatment is a mixture of bio-derived components infused with our proprietary formula AmberTech M99, empowering it with superior performance. AmberTech Sport Treatment cleans, conditions, and strengthens the metal at the molecular level, reducing friction to a fraction.

Product Features/Advantages

- Outstanding Film Boundary Strength (Superior Lubricant)
- Surface Protectant
- Excellent cleaning properties
- Anti-corrosive (Impedes corrosion from rust, oxidation, dirt, etc.)
- Cleans, Conditions, and Strengthens the Metal
- High Flash Point and Low Freeze Point (works great in hot or cold temperature applications)
- Water resistant
- Nonflammable and Nonhazardous
- Manufactured at an ISO 9001 facility
- Readily Biodegradable

AmberTech Sport Treatment Benefits

- Stabilizes bullet velocity (improves accuracy)
- Increases maximum bullet velocity
- Excellent cleaner (perfect for refurbishing old guns)
- Rust Remover
- Provides a smooth finish for collectibles (eliminates fingerprints)
- Extends maintenance intervals by shielding corrosion at molecular levels
- Lowers maintenance and operating costs
- Increases the firearms operational efficiency
- Reduces friction, heat, and metal wear

Stabilizing Bullet Velocity Advantages: AmberTech Sport Treatment helps stabilize the bullet velocity, meaning the velocity is almost identical on every shot. When there is a wide discrepancy between bullet velocity like there is with most conventional gun oils, then that can be the difference between hitting and missing your target. Therefore, AmberTech Sport Treatment drastically enhances accuracy, especially when shooting at long distance targets.

Note: AmberTech Sport Treatment not only works great at cleaning Firearms, but can be used to clean any other metal surface. (knives, fishing reels, scopes, tools, etc.)

AmberTech Sport Treatment Sizes

2 oz. Bottle	Case (24 Bottles)	Master Case (6 Cases)
